Drinking and health—an official survey of new information from British households: *comment*, **106**
Smoking and drinking habits before and during pregnancy in Spanish women, **36**
Alzheimer's disease, Dependency and community care in presenile Alzheimer's disease, **517 A**
Angina, Comparative health status of patients with ll common illnesses in Wales, **388**
Anisometropic amblyopia, Social deprivation and age at presentation of antisometropic amblyopia: effect of introducing a screening service, **507 A**
Ankylosing spondylitis, Cancer mortality after *x* ray treatment for ankylosing spondylitis, **513 A**
Antenatal screening, Antenatal screening: its use in assessing obstetric risk factors in Zimbabwe, **297**
Antioxidant vitamins, Antioxidant vitamins in the diet: relationships with other personal characteristics in Finland, **549**
Anxiety, Comparative health status of patients with ll common illnesses in Wales, **388**
Apolipoproteins, Serum lipid and apolipoprotein distributions in Hong Kong Chinese, **355**
Arthritis, Comparative health status of patients with ll common illnesses in Wales, **388**
Asthma
Asthma and occupation in east London, **516 A**
Changing asthma treatment in response to symptoms: a qualitative study of adult asthma patients in the community, **516 A**
Comparative health status of patients with ll common illnesses in Wales, **388**
Long term impact on height: the role of childhood psychosocial illness, chronic illness, and asthma, **507 A**
Athens, School injuries in Athens: socioeconomic and family risk factors, **490**
Audit
An audit of forefoot surgery in Suffolk, **524 A**
Evaluation of medical audit: *review article*, **435**
Australia
Demographic and dietary profiles of high and low fat consumers in Australia, **26**
Mammographic screening: measurement of the cost in a population based programme in Victoria, Australia, **391**

B
Back pain, Comparative health status of patients with ll common illnesses in Wales, **388**
Back problems, Socioeconomic influences on back problems in the community in Britain, **166**
Bacterial meningitis, Bacterial meningitis in Swaziland, **276**
Baltimore, AIDS and behavioural risk factors in women in inner city Baltimore: a comparison of telephone and face to face surveys, **412**
Behavioural risk factors, AIDS and behavioural risk factors in women in inner city Baltimore: a comparison of telephone and face to face surveys, **412**
Belfast, Survey to obtain an indication of sun care behaviour and malignant melanoma awareness in Belfast, **520 A**
Belgium, Coronary heart disease rates within a small urban area in Belgium, **344**
Belgrade, Cardiovascular disease mortality in Belgrade, **254**
Birth cohort study, An Ethiopian birth cohort study, **493 A**
Birth outcomes, Birth outcomes by level of obstetric care in Finland, **400**
Birthweight, Birthweight and later socioeconomic disadvantage: evidence from the 1958 British cohort study, **492 A**
Blood donors
Failure of the revised pre-donation guidelines to prevent people with a history of high risk behaviour from donating blood, **525 A**
Injecting drug use and amateur tattooing are risk factors for hepatitis C infection in UK blood donors: relevance for health promotion advice on the spread of blood borne viruses, **507 A**
Blood pressure, Effects of prompt treatment of hypertension on onset and severity of cerebrovascular disease in subjects using blood pressure check up, **516 A**
Body fat, Body fat and stroke: unmasking the hazards of overweight and obesity, **515 A**

Does cancer treatment in a specialist unit improve outcome? **498 A**
Radon exposure and cancers other than lung cancer in underground miners: a collaborative analysis of 11 studies, **497 A**

Cancer registry data, Using cancer registry data to examine variations in the management of breast cancer and set standards in a region, **498 A**

Capitation formula, Deriving a capitation formula for setting GP fundholding budgets: limitations of using aggregate routine data, **496 A**

Cardiac waiting lists, Cardiac waiting lists: moving away from methods of random allocation to appropriate waiting list management, **505 A**

Cardiovascular disease, Cardiovascular disease mortality in Belgrade, **254**

Cardiovascular mortality, Alcohol intake and cardiovascular mortality in hypertensives - a report from the Department of Health Hypertension Care Computing Project, **506 A**

Cardiovascular risk
Cardiovascular risk determination: discrepancy between total cholesterol evaluation and two compound laboratory indices in Norway, **338**
Cardiovascular risks and socioeconomic status: differences between men and women in Finland, **348**

Case-control studies
A locality based general practice network for case-control studies, **509 A**
General practitioner notes as a source of information for case-control studies in young women, **92**

Cash or care, Cash or care: the uses of the Independent Living Fund by people with disabilities in south east London, **517 A**

Causation, Epidemiology and causation: a realist view, **79**

CD4 lymphocyte values, HIV infection: social network, social support, and CD4 lymphocyte values in infected homosexual men in Malmö, Sweden, **580**

Cerebrovascular disease, Effects of prompt treatment of hypertension on onset and severity of cerebrovascular disease in subjects using blood pressure check up, **516 A**

Cervical screening
Cervical screening: the optimum visit plan for contacting users and non-users in Scotland, **586**
Effect of local and practice characteristics on uptake rates for cervical screening in general practice, **514 A**

Change, Measuring change over time: a comparison of results from a global single item of health status and the multidimensional short form-36 health status survey questionnaire, **510 A**

Chemicals, Hazardous chemicals: psychological dimensions of the health sequelae of a community exposure in Texas, **560**

Children
Leukaemia risk and social contact in children age 0-4 years in southern England, **601**
Quality of life for children and disabled children based on health as a resource concept: *editorial*, **529**

Chinese, Identifying a representative sample of UK Chinese for epidemiological research, **509 A**
Cholesterol
Cardiovascular risk determination: discrepancy between total cholesterol evaluation and two compound laboratory indices in Norway, **338**
Cholesterol lowering trials corroborate epidemiological evidence on total and cause specific mortality, **504 A**
Randomised controlled trial in northern England of the effect of a person knowing their own serum cholesterol concentration, **22**
Chronic illness, Long term impact on height: the role of childhood psychosocial illness, chronic illness, and asthma, **507 A**
Chronic obstructive pulmonary disease
Failure of cigarette smoking to explain international differences in mortality from chronic obstructive pulmonary disease, **134**
Measuring health change in adults with chronic obstructive pulmonary disease, **516 A**
